## Research Report Sponsorship

The NACC publishes several research reports annually, including a report issued during the first quarter of each year that reviews important industry events and looks ahead to what we believe will be significant industry trends, issues, opportunities, and technologies in the year ahead. This report is delivered to all NACC members and is available for purchase by non-members.

The NACC offers two ways in which companies can sponsor these reports and use them to further their own marketing efforts. First, sponsoring companies can have their logo placed on the front cover and the back cover of the report, as well as being listed on the sponsorship acknowledgement page within the report. The fee for this sponsorship is \$3,500 for each report sponsored.

The sponsor can also choose to make the report available to its customers and prospects by offering it for download. With this program, the NACC provides an unlimited report distribution license to the sponsor who can publicize the availability of the report and offer a free copy to anyone who responds. Fulfillment and information capture is at the sponsor's discretion. Sponsor's logo will appear on the front cover and the back cover of the report, as well as being listed on the sponsorship acknowledgement page within the report. The fee for this sponsorship is \$4,500 for each report sponsored.

## About the NACC

The National Association of Call Centers (NACC) was launched in 2005 as a 501(c)(6) not-for-profit membership organization. Unlike other membership organizations serving the call center industry we are not looking to turn a fast profit. Our objective was, and is, to create a solid, long-lasting, professional and trustworthy organization that serves the call center industry. Many call center professionals whose advice we trusted had warned us about some questionable operations and fly-by-night organizations in the industry. We chose to distinguish the NACC from disreputable organizations and adopted the non-profit structure in order to help assure the industry that we are different, we are here to stay, and we intend to be a positive influence on the industry in the years to come.
